ANCIENT CITY OF GERMANICIA

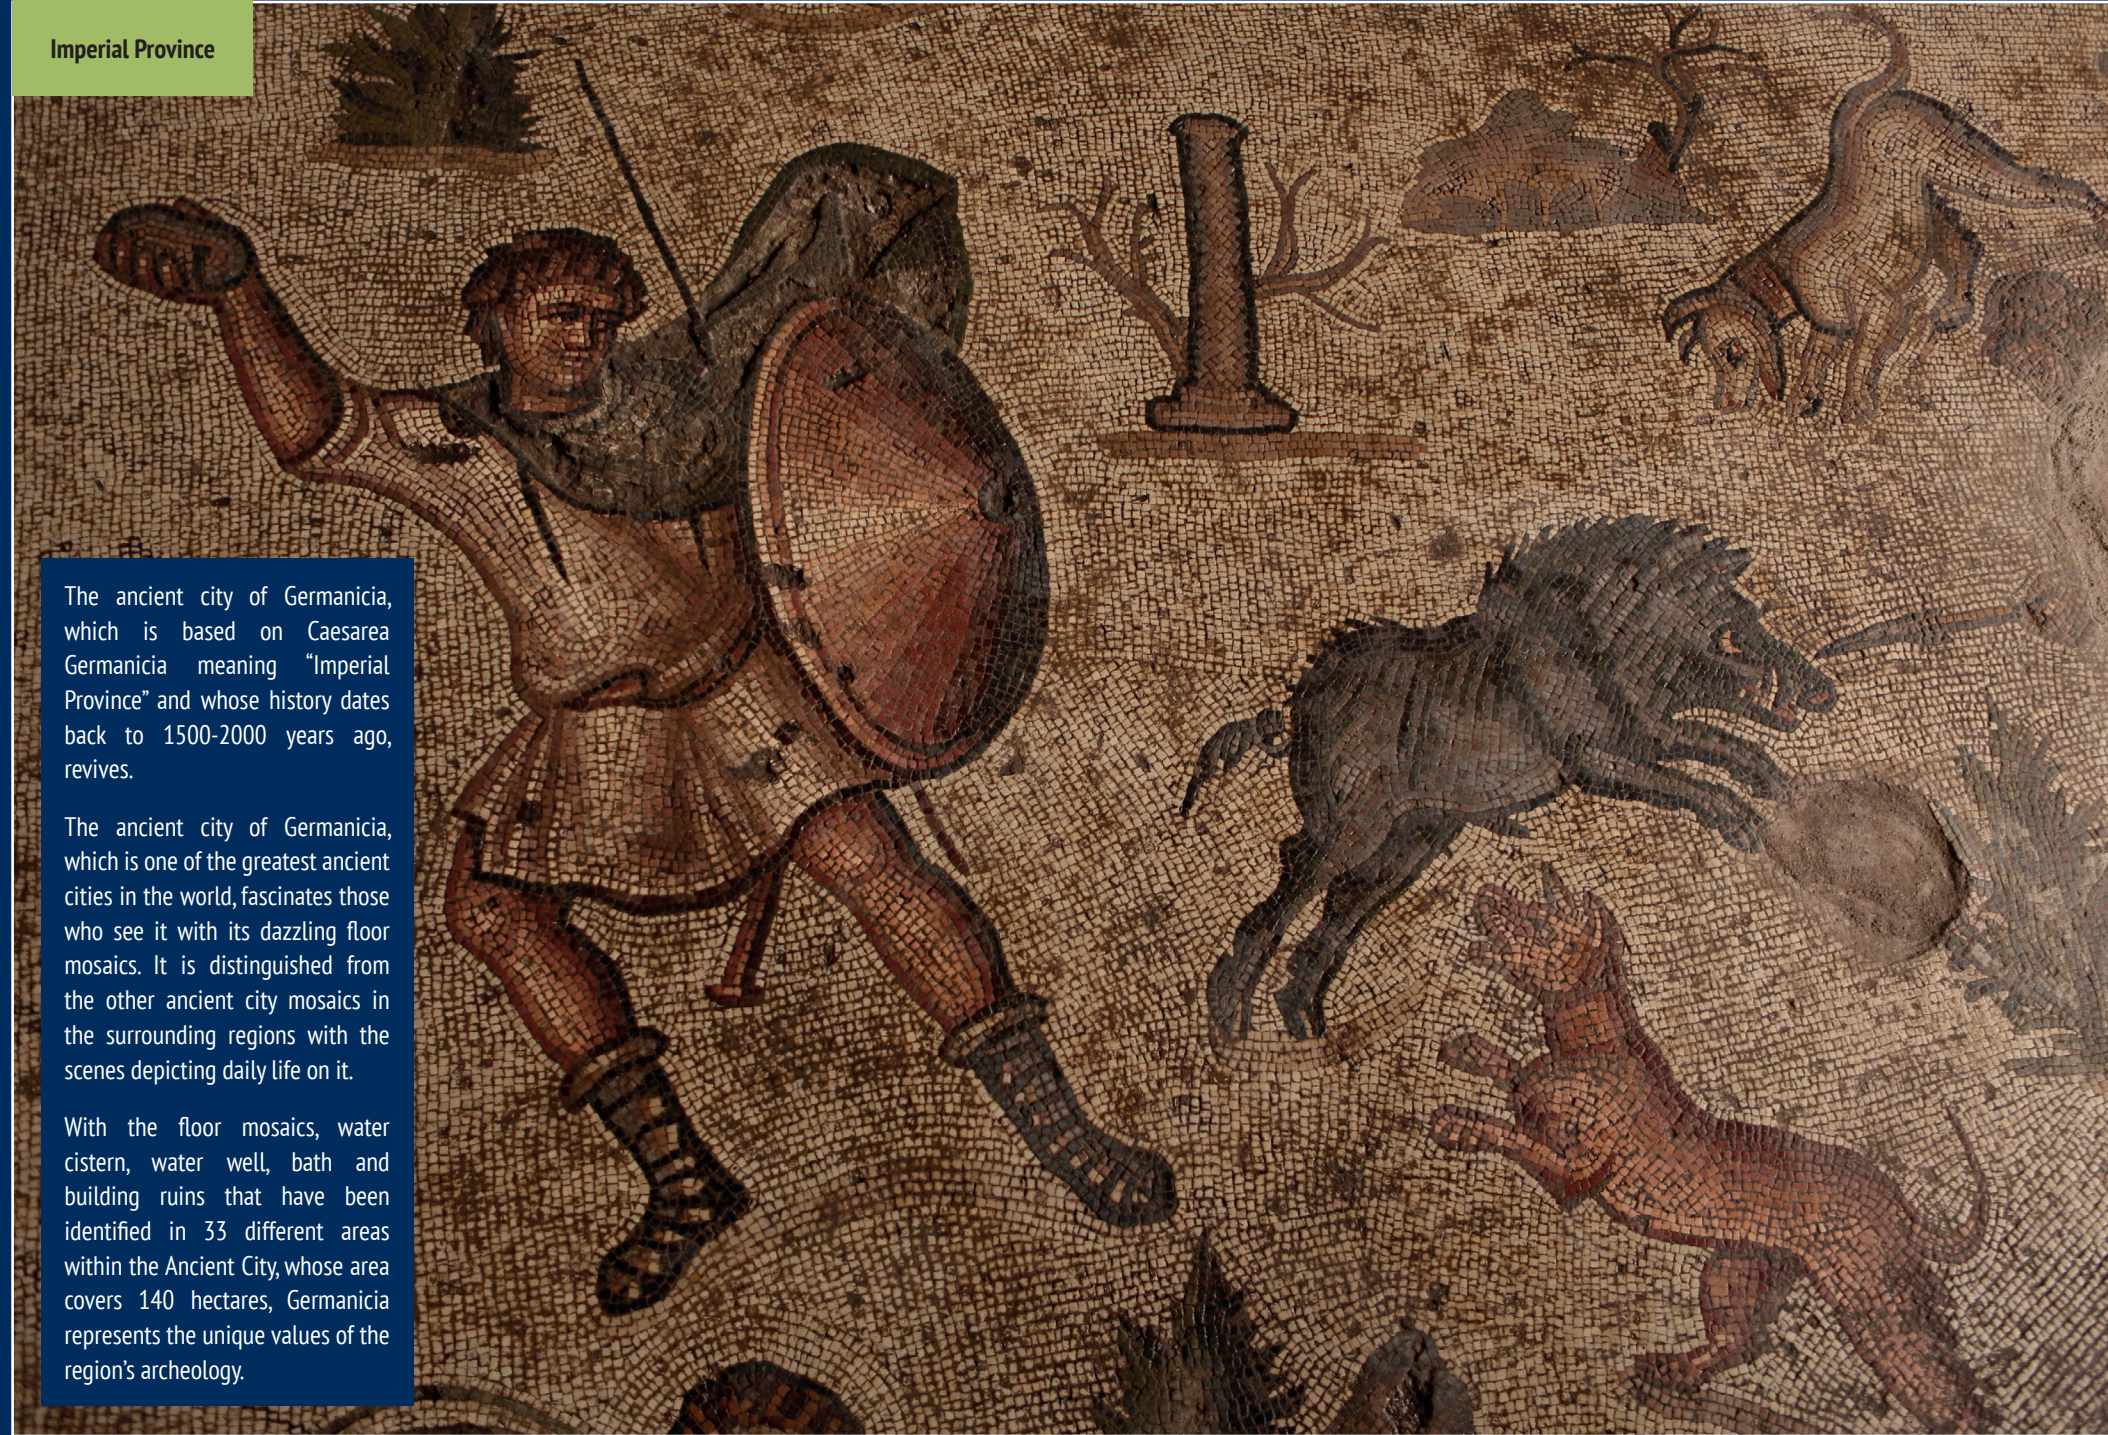

LOST CITY GERMANICIA

Pretty Girl of Maraş

The name Germanicia, which is only found in Ancient Sources, is now included in scientific sources. After the archaeological excavations carried out since 2007, Germanicia has acquired the identity of Ancient Province instead of Region title.

Imperial Province

The ancient city of Germanicia, which is based on Caesarea Germanicia meaning "Imperial Province" and whose history dates back to 1500-2000 years ago, revives.

The ancient city of Germanicia, which is one of the greatest ancient cities in the world, fascinates those who see it with its dazzling floor mosaics. It is distinguished from the other ancient city mosaics in the surrounding regions with the scenes depicting daily life on it.

With the floor mosaics, water cistern, water well, bath and building ruins that have been identified in 33 different areas within the Ancient City, whose area covers 140 hectares, Germanicia represents the unique values of the region's archeology.

Mystery of the Secret

As a result of the excavations, the veil of mystery of the city is being lifted day by day, and it seems that Germanicia will leave its title of lost city behind and regain its title of Imperial Province as the mystery of the secret unveils in time.

On Urban Life

Germanicia Floor Mosaics, which are mostly about daily life, reflect the lifestyle, religious belief, social and political structure, economic level of the period, as well as provide us with information about the fauna and flora of the region.
